

Bangladesh receives historically high remittance in February

Total remittance was \$18.49 billion during Jul–Feb'FY25, a 23.8% YoY growth

Bangladesh receives historically high remittance in February Total remittance was \$18.49 billion during FY25, a 23.8% YoY growth Bangladesh received \$2.528 billion in remittances in February 2025 alone, the fourth-highest monthly inflow in the country's history. The Bangladesh Bank released the latest remittance data on Sunday. Data shows Bangladesh recorded its highest-ever monthly remittance inflow of \$2.638 billion in December last year. And within just a month after, it touched the highest ever. The second-highest inflow of \$2.598 billion was recorded in July 2020, while the third-highest was \$2.54 billion in June 2024. The central bank reports that the overall amount of remittance inflow during the July–February period of the current FY25 was \$18.49 billion, which represented a 23.8% growth over the same time in the previous fiscal year. Central bank data analysis showed that during the July-February period of FY24, Bangladesh received \$14.94 billion in remittances. On the other hand, the surge in February was 25% higher than the amount received in the same month last year, which was \$2.16 billion.

According to Bangladesh Bank, in July \$1.913 billion, August \$2.224 billion, September \$2.404 billion, October \$2.395 billion, November \$2.199 billion, December \$2.638 billion, and January \$2.185 billion remittance came through banking channels. Regarding this rise, experts attributed this to the month of Ramadan, a period when remittance inflows typically rise as expatriates send more money to support their According to the central bank, the country's gross reserves as of February 27, just ended, were \$26.13 billion. According to the International Monetary Fund's (IMF) accounting system BPM-6, the reserves were \$20.90 billion.
